LOOK TO THE FUTURE.

Redefine how your business transfers money internationally

If your business has to transfer money into or out of South Africa, you will know only too well the profound effect your choice of provider can have on your bottom line and efficiencies.

This choice of provider is often limited, as businesses have a tendency to work with one bank or one money transfer company. As a result, your choice of solutions is also limited to one.

At Incompass, we work very differently. Just as you would rightfully expect an independent financial advisor to scope the market for the best solution, to meet your specific circumstances, we will do this for your forex needs.

Who we work with

We use different banks with different products to suit individual client needs:

- Nedbank,
- Investec,
- Mercantile.

Keep your existing banking

We don't interfere with normal business banking, you can keep your business banking and facility with the bank of your choice, our offering complements your banking, it does not replace it.
